

# FIELDVUE<sup>®</sup>

## Instrumentation

Please join us  
**March 28-30**  
for the 2.5-day course  
*DVC6000/6200 with AMS  
ValveLink Software v. 11*

**SPARTAN CONTROLS**

**March 28-30**

## **DVC6000/6200 with AMS ValveLink Software v. 11**

This two and a half day lecture/lab style course provides maximum class time with hands-on experience working with FIELDVUE DVC6000/6200 instrumentation and ValveLink Diagnostic Software. Students will be able to execute ValveLink Diagnostic routines and create an instrument database. HART multiplexer technology will also be explored.

### **Who should attend?**

Technicians, engineers and others responsible for installation, calibration and diagnostics for DVC FIELDVUE instruments and software.

### **Topics**

- Introduction to ValveLink Software
- ValveLink Tag and Database Management
- Configuration with ValveLink
- Calibration with ValveLink
- ValveLink Advanced and Performance Tier Diagnostics
- HART Multiplexer
- Troubleshooting

**NORPAC Office  
7500 Winston Street, Burnaby**

**RSVP to Ashley Kay at (604) 422-3746
