ADVANCING EMISSIONS REDUCTION, TOGETHER

Empowering Producers with Field-Ready Solutions Eligible for New Funding Support

METHANE REDUCTION DEPLOYMENT PROGRAM

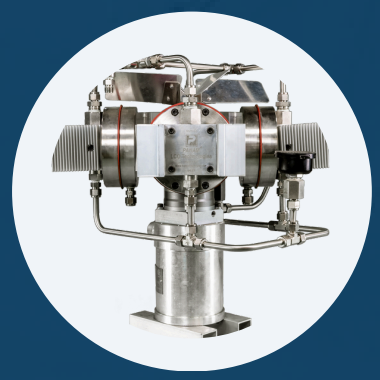

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

TECHNOLOGY TYPE B: ROUTINE VENTING – TANKS & COMPRESSION

- Vapour Recovery Unit with Tank Protection Equipment
- Vapour Recovery Unit with Tank Blanketing System
- SlipStream® for Storage Tank & Compressor Packing Vent Applications

Coverage: 50% of eligible project costs to

Maximum of $1 million per project

Funding Program Size: $41.8M

Funding per Company: $50K-$2M

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

TECHNOLOGY TYPE C: PNEUMATICS

- Electric Actuation
- Electric Chemical Pumps
- Instrument Air Compressor
- Gas Capture for Low-Pressure Vented Gas

REMOTE POWER

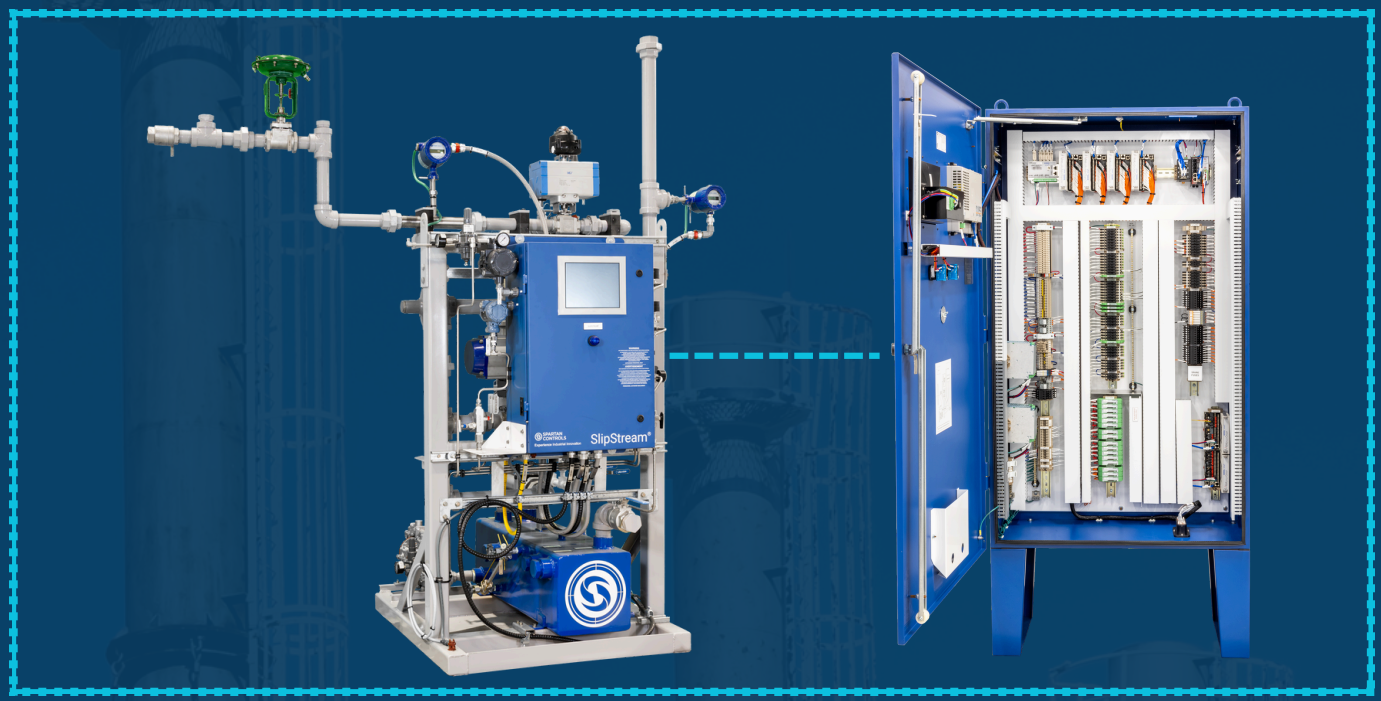

Large Final Emitters (LFEs) are eligible. Participants in the Methane Reduction Deployment Program can now develop environmental attributes, like carbon offsets, alongside ERA funding.

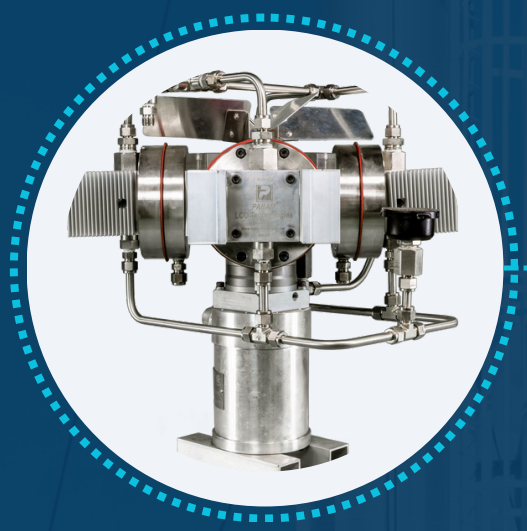

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

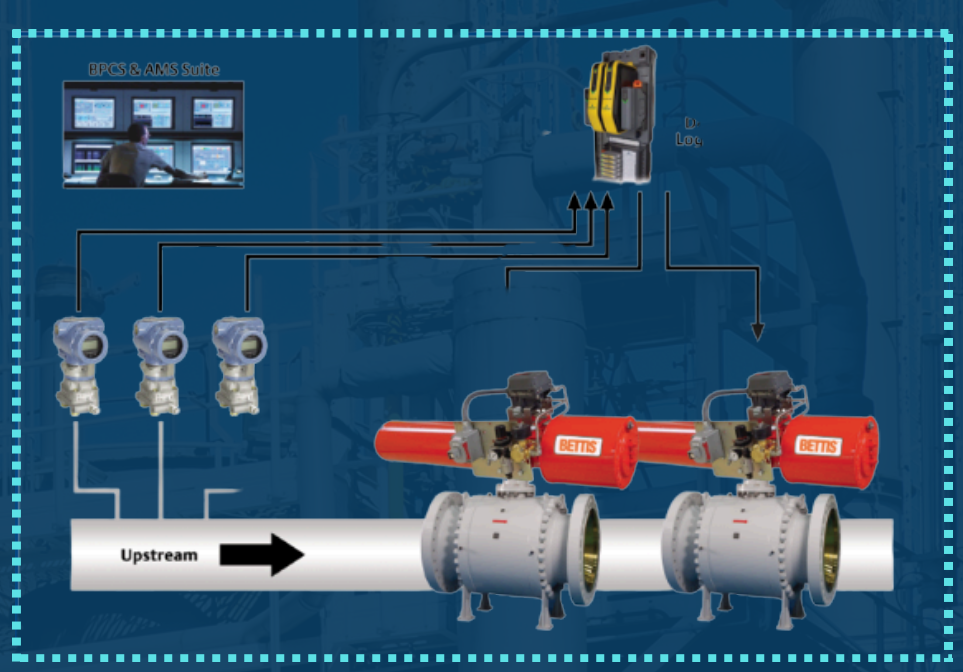

TECHNOLOGY TYPE G: OTHER

- Etalim 1GEN (power generation from captured gas)
- Solution gas management: SlipStream®, LCO VRU, HIPPS

Deadline: March 31, 2029 (or until fully allocated)

Administrated by: Modern West Advisory (on behalf of ERA)

SPARTAN CONTROLS

Experience Industrial Innovation

REDUCE METHANE EMISSIONS, IMPROVE EFFICIENCY, AND ACCESS UP TO $1M IN FUNDING

1. **Register as a Participant on the ERA Methane Reduction Deployment Fund Portal**
2. **Complete the Pre-Application**
3. **Reach out to Spartan's Business Development team to discuss the scope of your project**
4. **Add Spartan as an Eligible Contractor to your Project Application**
