PROGRAM**

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

TECHNOLOGY TYPE B: ROUTINE VENTING – TANKS & COMPRESSION

- Vapour Recovery Unit with Tank Protection Equipment
- Vapour Recovery Unit with Tank Blanketing System
- SlipStream® for Storage Tank & Compressor Packing Vent Applications

Funding Program Size: \$22M

Funding per Company: \$25K-\$1M

Min. Spend per Technology Type (A-G): \$50K

Cost Share: Up to 50% of eligible project costs

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

TECHNOLOGY TYPE C: PNEUMATICS

- Electric Actuation
- Electric Chemical Pumps
- Instrument Air Compressor
- Gas Capture for Low-Pressure Vented Gas

REMOTE
POWER

Facilities regulated under the TIER Regulation are not eligible unless they are part of an aggregated facility as defined under the TIER Regulation. Large Final Emitters (LFEs) and opted-in facilities are ineligible.

ELIGIBLE TECHNOLOGIES

Unlock funding with our solutions today

TECHNOLOGY TYPE G: OTHER

- Etalim 1GEN (power generation from captured gas)
- Solution gas management: SlipStream®, LCO VRU, HIPPS

Deadline: March 31, 2029 (or until fully allocated)

Administrated by: Modern West Advisory (on behalf of ERA)

Experience Industrial Innovation

REDUCE METHANE EMISSIONS, IMPROVE EFFICIENCY, AND ACCESS UP TO \$1M IN FUNDING

- 1. Register as a Participant on the ERA Methane Reduction Deployment Fund Portal**
- 2. Complete the Pre-Application**
- 3. Reach out to Spartan's Business Development team to discuss the scope of your project**
- 4. Add Spartan as an Eligible Contractor to your Project Application**
